## Operator, contact and access record

MyStake identifies GTW B.V., Curaçao company 165433, as operator under CGA licence OGL/2024/250/0115 and the National Ordinance on Offshore Games of Hazard, P.B. 1993 no. 63 (NOOGH). Payment agent CYGTW LTD is Cyprus company HE 462903, registered at Poreias, 2 3011, Limassol, Cyprus, acting for parent/license holder GTW B.V. The About Us page promotes secure payments, multiple currencies, localised products and 24/7 support and states regulatory compliance; these are recorded operator statements.

Contacts shown are support@mystake.email and affiliate@mystake.email, with live support/chat, registration, forgotten password and an EN selector. The support form asks username, email and language. Choices are English, German, French, Spanish (Spain), Spanish (Argentina), Italian, Portuguese (Portugal), Portuguese (Brazil), Finnish, Hindi, Czech, Korean, Norwegian, Russian, Swedish, Swahili and Turkish. A separate registration state shows Poland, PLN and acceptance of terms while over 18. Copyright is 2026. The site warns that gambling is unsuitable for solving financial problems.

## Catalogue identity

The home catalogue names the original Tower Rush beside the displayed provider spelling “Galaxys”. Other originals, mini-games, slots, live tables, providers and Big Wins values remain distinct entries. Displayed Big Wins include 39.2K, 35K, 29.4K, 12K, 11.6K, 11.1K, 10.8K, 10.4K, 8.7K, 15.9K, 8.0K, 7.2K, 7.0K, 6.9K, 6.5K, 6.1K, 4.7K, 5.5K and 4.3K; they are promotional interface values, not new payment evidence.

## Navigation, named games and provider labels

Recorded labels retain their product or market identity. Repeated names can represent separate page appearances; isolated numeric tokens are not assigned to missing events or players. Read the explanations in this volume for settlement scope.

## Complaints and server records

Complaints go to customer support, with escalation inside the company if not promptly resolved and reasonable updates on progress. If management does not resolve a dispute, the text allows contact with an independent body, gaming authority or listed regulator. It gives compliance@mystake.email. Server logs prevail over conflicting screen results and determine participation records. The recorded terms specify Curaçao law and a competent Curaçao court; account contact details are used for dispute correspondence.

## Time out and exclusion

A temporary break is requested through support; early reopening requires a written player request and is at the casino’s discretion. Self-exclusion is requested by email for six months to five years, defaulting to six months if no period is given. The passage asks players to mention gambling problems when closing an account and lists 24/7 support.

## Scouts, racing and result records

A scout is the company or partner’s stadium representative, reporting match events through an application. Reports are checked with officials after the match and corrected if necessary; after a lost connection, the scout’s information is collected before results are recorded. Events include goals, corners, cards, throw-ins and player running distance. A result source is shown per market; if the official source lacks results, the company may use an alternative. The source’s alternative-source example does not name specific services.

## Racing snapshot: 451

## Recorded tournaments

The mini-game tournament advertises up to 600$/€ Free Bets, a prize pool with that label and a countdown of 0d 16h 26m. The account display is masked, rank N°0 and prize 0.00 USD. Its 30-row leaderboard separately awards free spins; the complete rows are in E03-casinos_mystake-reference-tables.pdf. The differing prize labels are not silently unified.

The Top 5 Leagues tournament advertises up to $10,000 each week in cash and freebets, with countdown 5d 16h 26m. Its remaining flat observation sequence follows; missing row relationships are not invented.

## Top 5 Leagues recorded leaderboard tokens

Recorded labels retain their product or market identity. Repeated names can represent separate page appearances; isolated numeric tokens are not assigned to missing events or players. Read the explanations in this volume for settlement scope.
