MyStake sports examples and interface rules are separate from Tower Rush mechanics. Masked players and points describe a recorded leaderboard, not verified cash receipts. The source's USD/USDT examples and differing castling captions are retained as distinct source statements.

## Delete a game

Delete is available before any game in the active ticket starts and can reduce the ticket to one selection. Each removal deducts 10% of the current stake: the source begins at 100 USD, deducts 10 USD and calls the remainder 90 USDT; the next deduction is 9 USDT, leaving 81 USDT. The mixed currency labels belong to that example.

Removal is disallowed when the live price exceeds the ticket price by 30%. Replace, Add and Cashout can otherwise remain available; Cashout is based on the reduced current stake. A removed selection cannot be added again or restored through replacement. The function is unavailable if the stake would fall below 0.10 USDT.

## Replace a game

Replace removes one selection and inserts one or more alternatives, once per ticket and only for pre-match events. The new price or product of prices must be at least the replaced selection’s price at substitution. The alternative cannot concern the same match. Using Replace disables Cashout.

At least two original events must still be unstarted; an event introduced using Add does not count towards that condition. The source illustrates a target price of 3 with 1.8 and 1.25, then prints ‘2 X 1.50 = 3’; it also prints ‘1.45 X 1.44 X 1.44 = 3.0’. These are the source’s example values, kept without presenting them as corrected calculations.

## Asian handicap: third example

| 3rd Example: | | |
|---|---|---|
| Teams | Double Asian Handicap | Odds |
| Manchester United: | -1.25 (-1, -1.5) | 2.0 |
| Liverpool: | +1.25 (+1, +1.5) | 1.8 |

## Asian handicap: fourth example

| 4th Example: | | |
|---|---|---|
| Teams | Double Asian Handicap | Odds |
| Manchester United: | -1.75 (-1.5, -2) | 2.0 |
| Liverpool: | +1.75 (+1.5, +2) | 1.8 |

## Double totals: dollar example

| | | Example of double total bets | | |
|---|---|---|---|---|
| № | Match | Double Total Bet | Odds | Bet |
| 1 | Bayern-Borussia | Over 2.25 (2, 2.5) | 2.0 | $400 |
| 2 | Bayern-Borussia | Under 2.25 (2, 2.5) | 1.8 | $400 |
| 3 | Bayern-Borussia | Over 2.75 (2.5, 3) | 1.9 | $400 |
| 4 | Bayern-Borussia | Under 2.75 (2.5, 3) | 1.9 | $400 |

## Save a game

Draft/Save stores selected events and information in the draft area, allowing the user to follow changing prices, analyse selections and form a ticket without leaving that area.

## Sportsbook Cashout

Sportsbook Cashout can apply to active selections across pre-match, live and virtual sports, with any selection count and ticket type except System, subject to the following exclusions. Settlement pays the ticket immediately and later results no longer alter that payment.

It is unavailable if the relevant event is missing or disabled in live betting; for a ticket with a coefficient above 8.0; for an accumulator with more than seven events; after Replace; or for FreeBet tickets. The offered Cashout amount changes, and the company may disable the feature without advance notice.
