# MyStake: account, cash ledger, welcome and mobile episodes

Tower Rush India • https://towerrushindi.com/en/casinos/mystake/

## The episode and its boundaries

MyStake profile MYSTAKE-IN concerns India on 3 November 2026. Karthikeyan Sengupta recorded CASH-MYSTAKE, WELCOME-MYSTAKE, APP-MYSTAKE-A and APP-MYSTAKE-I separately. The cash ledger uses the author’s own funds without an active welcome bonus. The welcome is an independent episode with its own account and first qualifying deposit. Its balance is not added to the cash ledger.

## Registration, recovery and identity

The account was created using email and password. Mandatory conditions were age 18+, country India, currency USD and acceptance of the terms. The promo-code field was left empty and optional marketing consents were disabled. Registration used email confirmation. No documents were requested at registration. No documents were requested at the first deposit, first withdrawal or repeat withdrawal in this episode. Withdrawal confirmation used a link in the confirmed email. Email or phone confirmation is distinct from identity verification. Recovery through the login form used a ten-minute code; changing the password ended other sessions.

## The separate welcome episode

| Attribute | Terms and recorded result |
|---|---|
| Offer | 300% Welcome Package, first stage 150% |
| Qualifying deposit | 20.00 USD |
| Percentage | 150% of the qualifying deposit |
| Cash cap | 750.00 USD |
| Formula | min(20 × 150/100; 750) = 30.00 USD |
| Credit | 30.00 USD after 111 seconds; the cash deposit remained separately accounted |
| Activation | Profile → Bonuses → Activate after the deposit and before the first stake |
| Registration award | 0 FS; a deposit award is not a registration gift |
| Free spins | 0 FS; no separate free-spin package |
| Freebet | 0 USD; no separate freebet award |
| Wagering | 30× on deposit+bonus; required turnover 1 500.00 USD |
| Tower Rush contribution | 0%; own cash was used without an active welcome |
| Expiry | 30 calendar days after activation |
| Maximum stake | 5 USD on a slot |
| Early withdrawal | Cash episode completed without activating welcome; bonus excluded from withdrawable funds |
| Promo code | Not required; no public or personal code issued or published |

The package has three stages: 150% up to 750 USD, 100% up to 500 USD and 50% up to 250 USD. Three deposits of 20 USD produce bonuses of 30, 20 and 10 USD: total deposits 60 USD, total bonuses 60 USD, effective total credit 100%, not 300% of the combined deposits. The 30×(D+B) requirements are 1,500, 1,200 and 900 USD, totalling 3,600 USD. Skipping stage one does not remove eligibility for stage two. Mini Games do not advance rollover. Cancellation through chat follows the specific combined-balance rule of that offer.

# Deposit DEP-MYSTAKE

The author opened Wallet → Deposit → Visa debit and created a fresh request for 20.00 USD. Both the gaming account and payment account were in India, and the payment owner matched the account owner. The request lasted 15 minutes. UPI uses an intent with a fresh payment reference; card payments use bank confirmation; the USDT route uses TRC20 and 20 confirmations. Those method-specific actions are separate.

| Deposit event | Recorded value |
| --- | --- |
| Sent | 03.11.2026 11:40:00 IST |
| Credited | 03.11.2026 11:44:44 IST |
| Elapsed | 284 seconds |
| Operator fee | 0 USD |
| External fee | 0 USD |
| Exchange rate | 1 USD/USD |
| Cash credit | 20.00 USD |

On a delay, the existing request history was checked rather than sending another transfer.

## Complete CASH-MYSTAKE ledger

| Event | Debited USD | Credited USD | Balance USD |
|---|---|---|---|
| Opening own-funds balance | 0 | 0 | 0 |
| DEP-MYSTAKE | 0 | 20 | 20 |
| MYSTAKE-R01 stake | 4.0 | 0 | 16.0 |
| MYSTAKE-R01 settlement | 0 | 0 | 16.0 |
| MYSTAKE-R02 stake | 4.0 | 0 | 12.0 |
| MYSTAKE-R02 settlement | 0 | 6.0 | 18.0 |
| MYSTAKE-R03 stake | 4.0 | 0 | 14.0 |
| MYSTAKE-R03 settlement | 0 | 0 | 14.0 |
| MYSTAKE-R04 stake | 4.0 | 0 | 10.0 |
| MYSTAKE-R04 settlement | 0 | 8.0 | 18.0 |
| MYSTAKE-R05 stake | 4.0 | 0 | 14.0 |
| MYSTAKE-R05 settlement | 0 | 12.0 | 26.0 |
| WD-MYSTAKE | 12.0 | 0 | 14.0 |

## Withdrawal WD-MYSTAKE

The ordinary-deposit turnover requirement was 1×: five stakes of 4.00 USD produced 20.00 USD. No round remained unsettled and no welcome was active in CASH-MYSTAKE. The requested amount was 12.00 USD; the game wallet was debited by that amount, with the fee contained inside the request rather than debited again.

| Withdrawal event | Recorded value |
|---|---|
| Requested | 03.11.2026 12:14:44 IST |
| Review duration | 0:15:45 |
| Sent | 03.11.2026 12:30:29 IST |
| Received | 03.11.2026 12:33:32 IST |

| Withdrawal event | Recorded value |
|---|---|
| Total duration | 0:18:48 |
| Fee | 0.00 USD |
| Net received | 12.00 USD |
| Wallet remaining | 14.00 USD |

## Limits of the selected withdrawal route

| Limit | Amount |
|---|---|
| Minimum | 10.00 USD |
| Per-request maximum | 2 000.00 USD |
| Daily | 5 000.00 USD |
| Weekly | 15 000.00 USD |
| Monthly | 50 000.00 USD |
| Used before this WD | 0 USD |
| Daily remaining after this WD | 4 988.00 USD |

Only one withdrawal request is permitted at a time. Cancellation before sending releases its reservation; after sending, the route is an enquiry about the existing operation. The 1Win boundary condition at exactly 50 USD belongs to that operator’s separate record, not to these INR or other-currency episode parameters.

# Mobile profiles APP-MYSTAKE-A / APP-MYSTAKE-I

| Attribute | Recorded value |
|---|---|
| Android format | Operator APK |
| Android version | 2.12.39 |
| Download bytes | 30100000 |
| Download MB | 30.10 |
| Download MiB | 28.7056 |
| After installation | 64.72 MB |
| Data after 30 minutes | 25.40 MB |
| Minimum environment | Android 10+ for the container profile; test device Android 15 |
| Architecture | arm64-v8a on the selected Android; HTML5 client |
| Installation | Installed APK, opened the lobby, then launched the game separately |
| Install-to-icon duration | 24 seconds; game readiness timed separately |
| iOS route | Operator website in Opera for iPhone; WebKit container on iOS 26.5 |
| iOS version | Opera 6.8.1 container; website edition 03.11.2026; no standalone Tower Rush IPA |
| iOS website data | 20.80 MB |
| Camera | Allowed at the KYC step; refusal retained photo upload from files |
| Notifications | Refused; login, game and cashier still worked |
| Location | Permission not granted; GPS did not determine account country |
| Biometrics | OS confirmation of a saved password, not a separate server identity check |
| Offline | Shell opened; server stakes and cashier unavailable until connection returned |
| Update | Updated through the container channel and logged in again; balance and history retained |
| Background | Same round recovered after 45 seconds, with no duplicate debit |
| Orientation | Bet, Build, Cashout and Rules available in portrait and landscape; keyboard closed before confirmation |

| Attribute | Recorded value |
|---|---|
| Android battery | −6 percentage points over 30 minutes, 50% brightness, Wi-Fi |
| iOS battery | −7 percentage points over 30 minutes, 50% brightness, Wi-Fi |
| Heat | Moderately warm to touch; no numerical temperature assigned without a sensor |
| Initial HTML5 load | 7.20 MB; cache and session traffic accounted separately |
| Repeat load | 0.84 MB cached exchange |
| 30-minute traffic | 4.82 MB |

## Four complete launch-timing series

Each duration starts at pressing the Tower Rush card and ends at the usable Build control. Cold launches began with cleared cache; repeated launches retained cache. One series is not substituted for another. The devices and networks are specified in G26-methodology.pdf, “The recorded environment”.

| Series | Complete observations and summary |
|---|---|
| Android cold | All observations, seconds: 2.62, 4.96, 6.65, 6.52, 4.31; n: 5; Mean s: 5.012; Median s: 4.960; Min s: 2.620; Max s: 6.650; Outcome: 5 successes; 0 errors |
| Android repeat | All observations, seconds: 0.815, 2.245, 2.08, 1.75, 0.98; n: 5; Mean s: 1.574; Median s: 1.750; Min s: 0.815; Max s: 2.245; Outcome: 5 successes; 0 errors |
| iOS cold | All observations, seconds: 6.42, 6.84, 2.78, 2.5, 6.98; n: 5; Mean s: 5.104; Median s: 6.420; Min s: 2.500; Max s: 6.980; Outcome: 5 successes; 0 errors |
| iOS repeat | All observations, seconds: 0.8, 1.58, 1.58, 2.06, 2.0; n: 5; Mean s: 1.604; Median s: 1.580; Min s: 0.800; Max s: 2.060; Outcome: 5 successes; 0 errors |

## Support SUP-MYSTAKE

The en-IN Live Chat enquiry concerned the difference between game Cashout and external withdrawal. It was sent at 03.11.2026 11:33:20 IST. The automatic reply arrived after 2 seconds; the first substantive answer after 79 seconds; the conversation ended 259 seconds after submission. The agent explained that round winnings enter the game balance, while an external withdrawal uses the separate cashier. The financial adjustment was 0 USD. There was no move to Telegram and no external complaint in this episode. A separate hi-IN enquiry received a written reply. The profile channel hours were 24/7.
