Parimatch: account, cash ledger, welcome and mobile episodes

Tower Rush India • https://towerrushindi.com/en/casinos/parimatch/

The episode and its boundaries

Parimatch profile PARIMATCH-IN concerns India on 3 November 2026. Karthikeyan Sengupta recorded CASH-PARIMATCH, WELCOME-PARIMATCH, APP-PARIMATCH-A and APP-PARIMATCH-I separately. The cash ledger uses the author’s own funds without an active welcome bonus. The welcome is an independent episode with its own account and first qualifying deposit. Its balance is not added to the cash ledger.

Registration, recovery and identity

The account was created using +91 phone and one-time code. Mandatory conditions were age 18+, country India, currency INR and acceptance of the terms. The promo-code field was left empty and optional marketing consents were disabled. Registration used SMS code. No documents were requested at registration. No documents were requested at the first deposit, first withdrawal or repeat withdrawal in this episode. Withdrawal confirmation used a SMS code. Email or phone confirmation is distinct from identity verification. Recovery through the login form used a ten-minute code; changing the password ended other sessions.

The separate welcome episode

Attribute	Terms and recorded result
Offer	Welcome 200%
Qualifying deposit	450.00 INR
Percentage	200% of the qualifying deposit
Cash cap	24 000.00 INR
Formula	min(450 × 200/100; 24000) = 900.00 INR
Credit	900.00 INR after 203 seconds; the cash deposit remained separately accounted
Activation	Enabled in the cashier before the transfer; no separate code
Registration award	0 FS; a deposit award is not a registration gift
Free spins	0 FS; no separate free-spin package
Freebet	0 INR; no separate freebet award
Wagering	35× on bonus; required turnover 31 500.00 INR
Tower Rush contribution	0%; own cash was used without an active welcome
Expiry	7 calendar days
Maximum stake	100 INR on an eligible slot
Early withdrawal	Cash episode completed without activating welcome; bonus excluded from withdrawable funds
Promo code	Not required; no public or personal code issued or published

Deposit DEP-PARIMATCH

The author opened Wallet → Deposit → UPI and created a fresh request for 450.00 INR. Both the gaming account and payment account were in India, and the payment owner matched the account owner. The request lasted 15 minutes. UPI uses an intent with a fresh payment reference; card payments use bank confirmation; the USDT route uses TRC20 and 20 confirmations. Those method-specific actions are separate.

Deposit event	Recorded value
Sent	03.11.2026 16:40:00 IST
Credited	03.11.2026 16:42:38 IST
Elapsed	158 seconds
Operator fee	0 INR
External fee	0 INR
Exchange rate	1 INR/INR
Cash credit	450.00 INR

On a delay, the existing request history was checked rather than sending another transfer.

Complete CASH-PARIMATCH ledger

Event	Debited INR	Credited INR	Balance INR
Opening own-funds balance	0	0	0
DEP-PARIMATCH	0	450	450
PARIMATCH-R01 stake	90.0	0	360.0
PARIMATCH-R01 settlement	0	0	360.0
PARIMATCH-R02 stake	90.0	0	270.0
PARIMATCH-R02 settlement	0	135.0	405.0
PARIMATCH-R03 stake	90.0	0	315.0
PARIMATCH-R03 settlement	0	0	315.0
PARIMATCH-R04 stake	90.0	0	225.0
PARIMATCH-R04 settlement	0	180.0	405.0
PARIMATCH-R05 stake	90.0	0	315.0
PARIMATCH-R05 settlement	0	270.0	585.0
WD-PARIMATCH	450	0	135.0

Withdrawal WD-PARIMATCH

The ordinary-deposit turnover requirement was 1×: five stakes of 90.00 INR produced 450.00 INR. No round remained unsettled and no welcome was active in CASH-PARIMATCH. The requested amount was 450.00 INR; the game wallet was debited by that amount, with the fee contained inside the request rather than debited again.

Withdrawal event	Recorded value
Requested	03.11.2026 17:12:38 IST
Review duration	0:05:15

Withdrawal event	Recorded value
Sent	03.11.2026 17:17:53 IST
Received	03.11.2026 17:22:04 IST
Total duration	0:09:26
Fee	0.00 INR
Net received	450.00 INR
Wallet remaining	135.00 INR

Limits of the selected withdrawal route

Limit	Amount
Minimum	450.00 INR
Per-request maximum	100 000.00 INR
Daily	150 000.00 INR
Weekly	500 000.00 INR
Monthly	1 500 000.00 INR
Used before this WD	0 INR
Daily remaining after this WD	149 550.00 INR

Only one withdrawal request is permitted at a time. Cancellation before sending releases its reservation; after sending, the route is an enquiry about the existing operation. The 1Win boundary condition at exactly 50 USD belongs to that operator’s separate record, not to these INR or other-currency episode parameters.

Mobile profiles APP-PARIMATCH-A / APP-PARIMATCH-I

Attribute	Recorded value
Android format	Operator APK
Android version	4.10.37
Download bytes	26250000
Download MB	26.25
Download MiB	25.0340
After installation	56.44 MB
Data after 30 minutes	32.20 MB
Minimum environment	Android 10+ for the container profile; test device Android 15
Architecture	arm64-v8a on the selected Android; HTML5 client
Installation	Installed APK, opened the lobby, then launched the game separately
Install-to-icon duration	36 seconds; game readiness timed separately
iOS route	Operator website in Opera for iPhone; WebKit container on iOS 26.5
iOS version	Opera 6.8.1 container; website edition 03.11.2026; no standalone Tower Rush IPA
iOS website data	25.60 MB
Camera	Allowed at the KYC step; refusal retained photo upload from files
Notifications	Refused; login, game and cashier still worked
Location	Permission not granted; GPS did not determine account country
Biometrics	OS confirmation of a saved password, not a separate server identity check
Offline	Shell opened; server stakes and cashier unavailable until connection returned
Update	Updated through the container channel and logged in again; balance and history retained
Background	Same round recovered after 45 seconds, with no duplicate debit
Orientation	Bet, Build, Cashout and Rules available in portrait and landscape; keyboard closed before confirmation

Attribute	Recorded value
Android battery	−6 percentage points over 30 minutes, 50% brightness, Wi-Fi
iOS battery	−5 percentage points over 30 minutes, 50% brightness, Wi-Fi
Heat	Moderately warm to touch; no numerical temperature assigned without a sensor
Initial HTML5 load	7.20 MB; cache and session traffic accounted separately
Repeat load	0.84 MB cached exchange
30-minute traffic	6.06 MB

Four complete launch-timing series

Each duration starts at pressing the Tower Rush card and ends at the usable Build control. Cold launches began with cleared cache; repeated launches retained cache. One series is not substituted for another. The devices and networks are specified in G26-methodology.pdf, “The recorded environment”.

Series	Complete observations and summary
Android cold	All observations, seconds: 5.61, 5.61, 2.1, 3.4, 5.87; n: 5; Mean s: 4.518; Median s: 5.610; Min s: 2.100; Max s: 5.870; Outcome: 5 successes; 0 errors
Android repeat	All observations, seconds: 1.255, 2.025, 1.035, 1.42, 1.585; n: 5; Mean s: 1.464; Median s: 1.420; Min s: 1.035; Max s: 2.025; Outcome: 5 successes; 0 errors
iOS cold	All observations, seconds: 2.64, 3.76, 4.04, 2.78, 7.96; n: 5; Mean s: 4.236; Median s: 3.760; Min s: 2.640; Max s: 7.960; Outcome: 5 successes; 0 errors
iOS repeat	All observations, seconds: 1.04, 2.48, 2.6, 0.86, 2.6; n: 5; Mean s: 1.916; Median s: 2.480; Min s: 0.860; Max s: 2.600; Outcome: 5 successes; 0 errors

Support SUP-PARIMATCH

The en-IN Live Chat enquiry concerned the difference between game Cashout and external withdrawal. It was sent at 03.11.2026 16:33:20 IST. The automatic reply arrived after 2 seconds; the first substantive answer after 147 seconds; the conversation ended 327 seconds after submission. The agent explained that round winnings enter the game balance, while an external withdrawal uses the separate cashier. The financial adjustment was 0 INR. There was no move to Telegram and no external complaint in this episode. A separate hi-IN enquiry received a written reply. The profile channel hours were 24/7.
