## Separate app and home-page records

The app page carries an update date of 18 February 2026 and displays 880k installs, version 3.6, size 43 MB and a 4.9 rating. Its product table gives Android, iOS, macOS and Windows, INR, a minimum bet of 100 INR and maximum Cashout of ₹50,000 or more. These are page claims, not a new installation or payment test. The page describes Indian localisation, cricket, football, tennis, live betting and local payments; its “popular in 2025” wording remains a separate promotional time reference.

The home-page platform table instead lists Android 1.4.3 (~35 MB), iOS 1.3.9 (~42 MB), Windows 7/8/10/11 (~55 MB) and macOS 10.13 (~60 MB). It calls installation free and describes Android APK, iOS App Store and a desktop client. The app-page PC paragraph, however, says there is no direct application and describes browser access or an emulator. Both page profiles are preserved rather than combined into a single download promise.

## Access routes and requirements

Android access is described as an APK from the official website, requiring permission to install from unknown sources; the page says Google Play does not provide the app. The iPhone/iPad route is the App Store, with touch optimisation and push notifications. The home page promotes low data use, live matches, bonus/game alerts and desktop multi-bet use. Regional/Hindi translation is explicitly limited to selected games, leaving some casino games untranslated.

The complete requirements are in E08-casinos_crorebet-reference-tables.pdf: Android 5.0+, processor 1.4 GHz+, RAM from 2 GB and storage from 30 MB, with Wi-Fi/3G/4G/5G; iOS 12.0+, A9+, RAM from 2 GB and storage from 100 MB, with Wi-Fi/4G/5G; desktop Windows 10+ or macOS 10.13 High Sierra+, Windows processor 1.5 GHz+ (Core i3/Ryzen 3 examples), Mac Core i5+ or Apple M1, RAM from 4 GB and storage from 100 MB. The desktop requirements are distinct from the older OS labels in the home-page platform table.

## Welcome, casino and mobile offers

The sports welcome is 100% of the first deposit up to ₹20,000, minimum ₹100, wagering 30x and seven days after activation. The claim instructions describe registration, a deposit and either automatic credit or a code. Its stated eligible products are cricket/football betting and selected casino slots; this wording does not name Tower Rush.

The Aviator/crash welcome advertises 700%, up to ₹40,000 plus a ₹300 freebet, wagering 40x, minimum ₹100 and seven days after activation. The slots offer advertises 600% up to ₹10,000, wagering 20x, minimum ₹300 and seven days after activation, naming Gates of Olympus and Book of Dead as examples. App-only offers include mobile-tournament freebets, push-notification codes and reloads for mobile deposits; the table gives minimum ₹100, variable wagering and mobile-only promotion validity.

Weekly Reload is up to ₹20,000 at 30x: the app bonus summary says no deposit, while the detailed bonus table says ₹300 and weekly validity. Cashback is up to 15–20%, without wagering or deposit, weekly on Monday. All rows of both tables are in E08-casinos_crorebet-reference-tables.pdf.

The banners separately use Welcome Bonus 700%, Sports Welcome Pack 700%, Live Welcome +150%, IPL ₹450,000 Live Battle, Welcome Crash 700% and Slots Bonus +200 FS. The captured bonus countdown includes 58 days, five hours, 48 minutes and 13 seconds, with separate 57 and 22 tokens; later states include 12 and 11. These are snapshot displays, not recalculated deadlines or Tower Rush-specific offers.

## Registration, verification and game coverage

The registration passage asks for personal information, email, a secure password and chosen currency, followed by a first deposit to claim a welcome offer. It contains “maximum bonus amount is INR” without a numeric amount; no number is inferred from that incomplete sentence. It warns that blocking or abusing the system can limit withdrawals. The page says identity verification for withdrawals can cause delays.

The catalogue names Chicken Road, Aviator, Crazy Time and Aviatrix and groups live dealers, crash games, casino, slots and VIP. Other listed casino categories are blackjack, roulette, poker, bingo, baccarat, lottery and board games. Sports coverage names NBA, volleyball, tennis, cricket, esports, basketball, hockey, kabaddi, local/international leagues and World Cup events. Cricket coverage describes domestic/international live matches, streaming, match winners, leading batsmen and over/under markets; IPL 2026 is a separate campaign reference. Interface tokens 34, 33 and 32 have no additional assigned meaning.

## Payments and the distinct tables

The app-page payment table gives UPI/Paytm/PhonePe minimum deposit ₹100, withdrawal limit ₹1,00,000 and instant timing; credit/debit cards minimum ₹500, withdrawal limit ₹50,000 and one to two working days; bank transfer minimum ₹1,000, withdrawal limit ₹5,00,000 and one to three working days.

The home-page table gives UPI/PhonePe/Paytm/Google Pay deposits ₹300–₹100,000 and withdrawals ₹500–₹100,000, with instant deposit / one to seven days. Bitcoin minimum deposit is 0.0001 BTC, withdrawal “no limits”, deposit time 30 minutes to one hour and withdrawal up to seven days. These profiles are reproduced in full in E08-casinos_crorebet-reference-tables.pdf. The prose advertises payment methods as free and withdrawals within seven days; that broad claim does not override the route-specific fields or the account episode.

## Recorded licensing and legality claims

The page names Curacao Gaming and, in a separate passage, a Curacao Gambling Commission licence 8048/JAZ. It promotes SSL, security services, protected data and fair transactions. Its India-legality paragraph claims operation is allowed outside prohibited regions, citing the Public Gambling Act 1867 as focused on physical gambling and omitting online betting. These are claims in the supplied page, not an independently verified legal conclusion or a licence-validity check. The generic odds field is 1.7 and does not identify a specific market.

## Testimonials and support

The displayed testimonial attributed to Ankit J. describes signing up during an IPL match, mixed wins/losses and one same-day withdrawal. The one attributed to Rahul, Mumbai describes quick UPI deposits, stable loading and withdrawals sometimes the same day and sometimes slower. They are attributed page testimonials, not additional verified withdrawal episodes.

Support is offered through live chat, email and other contact methods for accounts and deposits, but this passage does not give a specific support address. Footer routes include Contact Us, About Us and Privacy Policy, with copyright 2026 CroreBet India Official. Promotional claims about easy navigation, entertainment and winning opportunities do not establish guaranteed returns.
