Tennis terms

This reference follows the recorded Betify Betting Rules 2.0, active 06.08.2026. The glossary explains terminology; the market, sport and general settlement clauses govern results.

Term	Meaning
Ace	A legal serve landing in the service box untouched by the receiver's racket, winning the point.
Abandonment / retirement	A match stopped without timely completion under general 6.2.2 or tennis-specific rules, including weather/darkness; retirement is official withdrawal after the first point, often injury/illness.
Break point / converted break	The receiver is one point from winning the service game / actually wins a game in which a break opportunity existed.
Double fault	Two successive illegal serves in one point, for example net or outside the service box, losing the point.
Game	At least four points (15, 30, 40, game), normally with a two-point lead.
Match or super tie-break	Usually a ten-point decider replacing the final set; one won set and one total game unless expressly stated otherwise.
Natural conclusion	An outcome fixed beyond alteration by any remaining possible play.
Penalty point/game	An umpire award for the opponent's code violation, counting in score and settlement.

Term	Meaning
Set	A sequence of games; best-of-three needs two sets, best-of-five three.
Short set	A modified first-to-four-games set rather than six.
Tie-break	A deciding game at 6–6, usually first to seven points.
Void	Cancellation/refund when retirement or abandonment leaves the outcome unresolved.
Walkover	Withdrawal before the first point; all match bets void.

Conditions, scoring and interruptions

Venue, day/schedule, surface and indoor/outdoor changes normally leave bets valid. Rain, darkness and other interruptions keep unsettled markets pending until play resumes; they do not void unless the tournament is officially cancelled or indefinitely postponed. Incorrect player/team labels or markets left open with wrong live scores may void affected bets.

A deciding match tie-break is settled as the third set and one completed set. Each standard or match tie-break counts as one game for game handicaps and totals unless stated otherwise. Umpire-awarded penalty points leave bets on the relevant game/point standing.

Retirement and natural conclusion

Retirement, walkover or early termination before the required sets/games finishes voids unsettled outcomes, except those already unconditionally decided. A pre-first-point withdrawal is a walkover and voids all match bets. The following source examples preserve the stated calculations and boundaries.

Term	Meaning
Set abandoned at 4–4	Over 9.5 games wins and under loses because a finish needs at least ten. Over/under 10.5 voids.
Best-of-three abandoned at 6–4, 4–6	Over 25.5 wins, under loses because a finish needs at least 26. Over/under 26.5 voids.
Abandoned at 6–4, 4–6, 5–5	A player +2.5 or greater wins; −2.5 or lower loses. Handicaps from −2 to +2 void.
Abandoned at 6–4, 2–0	A has eight games: over 7.5 wins, under 7.5 loses; over 8.5 voids.

Aces, faults and break points

Official tournament sources, including ATP Tour and WTA, or data providers supply statistics. Retirement/disqualification voids unresolved statistical outcomes; already determined ones settle. Over 5.5 aces wins if six are already served, but voids with only three. Break Points Won counts conversions; Total Break Points counts opportunities whether converted or not. Super-tie-break aces, double faults and other statistics contribute to match totals.

First Ace/First Double Fault settles immediately when it occurs. Retirement beforehand voids; retirement afterwards does not undo it. Most Aces, Most Double Faults, ace handicaps and comparable 1X2/handicap statistics void on retirement/disqualification because the trailing player could theoretically have overtaken.

Changed formats and tie-break markets

A best-of-five to best-of-three change or introduction of short sets leaves Match Winner and Set Winner standing. Game/set match totals and handicaps void unless already unconditionally determined. Surface or indoor/outdoor changes are not format changes.

Tie-break in Match Yes/No means a standard 6–6 tie-break; a super tie-break replacing the final set does not qualify. A completed standard tie-break before abandonment settles Yes. Abandonment before one voids unless no possible remaining scoring scenario can produce one.

Correct set score, game and point bets

Unfinished correct-set-score bets normally void, except impossible scores lose. In best-of-three, once A has won set one and the match is abandoned, B to win 0–2 loses; 2–0, 2–1 and 1–2 void. Retirement/disqualification during Current/Next Game voids that game-winner market regardless of its point score, but an umpire penalty point/game completing it leaves it valid.

Specific Point Winner predicts a named point, for example set 1, game 3, point 4. An umpire-awarded penalty point settles on the award. Retirement or abandonment during the point voids that point-winner bet.
