Betify: account, cash ledger, welcome and mobile episodes

The episode and its boundaries

Betify profile BETIFY-IN concerns India on 3 November 2026. Karthikeyan Sengupta recorded CASH-BETIFY, WELCOME-BETIFY, APP-BETIFY-A and APP-BETIFY-I separately. The cash ledger uses the author's own funds without an active welcome bonus. The welcome is an independent episode with its own account and first qualifying deposit. Its balance is not added to the cash ledger.

The recorded BETIFY-IN episode is an individual account case. The general terms, clause 2.9, prohibit registration from India. A successful individual episode does not grant new Indian residents a general right to register; this dossier does not recommend Betify as an available new-registration option for them.

Registration, recovery and identity

The account was created using email and password. Mandatory conditions were age 18+, country India, currency EUR and acceptance of the terms. The promo-code field was left empty and optional marketing consents were disabled. Registration used email confirmation. No documents were requested at registration. No documents were requested at the first deposit, first withdrawal or repeat withdrawal in this episode. Withdrawal confirmation used a link in the confirmed email. Email or phone confirmation is distinct from identity verification. Recovery through the login form used a ten-minute code; changing the password ended other sessions.

The separate welcome episode

Activation	Enabled in the cashier before the transfer; no separate code
Registration award	0 FS; a deposit award is not a registration gift
Free spins	100 FS in Shaolin Panda, 0.20 EUR/FS; nominal 20 EUR; winnings 18.40 EUR; wagering 0×; welcome winnings cap 250 EUR
Freebet	0 EUR; no separate freebet award
Wagering	0× on fs_win; required turnover 0.00 EUR
Tower Rush contribution	0%; own cash was used without an active welcome
Expiry	14 calendar days
Maximum stake	5 EUR on a slot
Early withdrawal	Blocked while an active sticky Betify bonus applies; no self-cancellation
Promo code	Not required; no public or personal code issued or published

Deposit DEP-BETIFY

The author opened Wallet → Deposit → Visa debit and created a fresh request for 20.00 EUR. Both the gaming account and payment account were in India, and the payment owner matched the account owner. The request lasted 15 minutes. UPI uses an intent with a fresh payment reference; card payments use bank confirmation; the USDT route uses TRC20 and 20 confirmations. Those method-specific actions are separate.

Withdrawal WD-BETIFY

The ordinary-deposit turnover requirement was 1×: five stakes of 4.00 EUR produced 20.00 EUR. No round remained unsettled and no welcome was active in CASH-BETIFY. The requested amount was 10.00 EUR; the game wallet was debited by that amount, with the fee contained inside the request rather than debited again.

Limits of the selected withdrawal route

Limit	Amount
Minimum	10.00 EUR
Per-request maximum	2 000.00 EUR
Daily	5 000.00 EUR
Weekly	15 000.00 EUR
Monthly	50 000.00 EUR
Used before this WD	0 EUR
Daily remaining after this WD	4 990.00 EUR

Only one withdrawal request is permitted at a time. Cancellation before sending releases its reservation; after sending, the route is an enquiry about the existing operation. The 1Win boundary condition at exactly 50 USD belongs to that operator’s separate record, not to these INR or other-currency episode parameters.

Support SUP-BETIFY

The en-IN Live Chat enquiry concerned the difference between game Cashout and external withdrawal. It was sent at 03.11.2026 19:03:20 IST. The automatic reply arrived after 2 seconds; the first substantive answer after 181 seconds; the conversation ended 361 seconds after submission. The agent explained that round winnings enter the game balance, while an external withdrawal uses the separate cashier. The financial adjustment was 0 EUR. There was no move to Telegram and no external complaint in this episode. A separate hi-IN enquiry received a written reply. The profile channel hours were 24/7.
