New Cashback for Our Own: recorded scope

This Russian-market campaign is recorded from 1 May 2025 at 12:00 to 30 November 2027 at 23:59, UTC+3. Dates and rules may change; prior records may be used. VIP Cashback participants are excluded. The broad player definition requires at least one unit of monthly OSP; the award eligibility clause requires at least 5,000 units. Each calendar month runs from 00:00:00 on its first day to 23:59:59 on its last, UTC+3, with the first period starting on the campaign opening day.

OSP is calculated as Sis − Sv − Sos − Sp. The excerpt explicitly defines Sis as all interactive stakes through the site/app in the month or other relevant period; it does not provide every deduction definition in this cashback slice. The award is a non-transferable gaming-coupon freebet, not currency, electronic money or an unconditional cash claim. No alternative use, compensation or recalculation is promised.

Award timing and conversion

There is at most one prize per calculation month. The individual freebet is 200–40,000 RUB coupon units and cannot exceed 4% of that month's OSP. The band table is guidance the operator may use, not a guaranteed payment. During days 1–15 of the following month the operator checks compliance, decides eligibility and award amount, and credits the relevant account. The saved rules state that a refusal cannot be challenged.

One forecast must use the freebet within 168 hours of credit. After the operator accepts compliance, it may credit winnings minus the freebet to the main account; nothing transfers before approval of the qualifying forecast. The cashback award remains distinct from Tower Rush winnings and from any international Melbet welcome offer.
