Melbet Russia: weekly tournament and historical New Year awards

Tower Rush India | https://towerrushindi.com/en/casinos/

Weekly Tournament: ranking, division and timing

The saved Melbet Russia campaign runs from 3 August 2026 at 12:00 to 29 November 2027 at 11:59, UTC+3, subject to change and use of earlier records. Registration and identification must be complete by campaign end. More points produce a higher weekly leaderboard position. The operator chooses the number of paid positions and prize allocation. One prize is allowed per recognition; the same participant can be recognised as a weekly winner at most 69 times during the campaign.

The award formula is E/KU, rounded mathematically to two decimal places. The excerpt does not define those two symbols or reproduce the announced rank-by-rank pool and individual caps. When multiple accepted winners share a position, that position's award is divided equally and rounded to hundredths. The scoring extract defines SE as the sum of forecasts of at least 500 RUB coupon units placed through the site/app in the weekly period, but omits the full points formula and exact period schedule. These omissions prevent reconstructing a complete payout calculator.

Winners are determined within 24 hours after the playing period ends, following a leaderboard and eligibility review. Credit to the special bonus account is due within 14 working days of winner recognition. After compliant freebet play-through, winnings minus the freebet may move to the main account. The operator may refuse recognition or an award without explanation, verify age/registration where violations are suspected, omit or recalculate points after a technical error, and change the number or duration of playing periods before campaign end.

New Year Mayhem: historical 2022–2023 campaign

The saved dates are 25 December 2022 at 10:00 to 15 January 2023 at 23:59, UTC+3, subject to alteration. This is a historical offer, not a current promotion. Registration and identification plus at least one interactive stake of RUB 500 during the campaign are required. A further excerpt requires at least three singles or accumulators but omits their detailed simultaneous conditions. Recognition and prize selection are discretionary and use a randomiser.

Recurring award label	Previous calendar-month requirements for monthly credit
Freebet-10000	Interactive stakes of at least RUB 20,000 AND positive stakes-minus-paid-out amount of at least RUB 20,000

Recurring award label	Previous calendar-month requirements for monthly credit
Freebet-2023	Interactive stakes of at least RUB 5,000 AND positive stakes-minus-paid-out amount of at least RUB 5,000

Both recurring credits are considered on days 1–20 of the month. Failure to qualify in more than three calendar months, consecutive or otherwise, permits termination without compensation. An investigation of rule compliance or suspicion of fraud/unfriendly conduct also permits termination. The saved rules deny a right to contest credit or non-credit decisions.

Each freebet must be used in full for a forecast solely to complete play-through within seven calendar days. Expiry or a late forecast can cause cancellation without compensation. If the forecast wins, the operator may credit an amount equal to the freebet itself after accepting the result; this is not the profit-only conversion used by several other campaigns. The Freebet-10000 subsection additionally requires an interactive stake of at least RUB 500 before the converted amount can be paid as winnings. The Freebet-2023 excerpt does not restate that additional condition.

Other active bonuses block use while the award’s own deadline continues. Physical-prize specifications, appearance, shelf life and operating characteristics are determined by the operator or manufacturer; the saved rules reject complaints that a prize differs from the winner’s expectations. The extract does not establish the full original prize inventory or number of recurring credits.
