Identifying the original Tower Rush

Tower Rush India | https://towerrushindi.com/en/original/

Identity checklist

Item	Original profile
Name	Tower Rush
Developer and provider	Galaxsys
Local identity key	galaxsys:tower-rush:original
Modification	Original; Tower Rush 2 and Branded are separate
Round	Individual tower / instant / crash mechanics with Build and Cashout
Features	Frozen Floor, Temple Floor and Triple Build
Other titles	Dragon Tower is a different game; suffix 2 identifies a sequel

The reference rules belong to the original recorded on 3 November 2026. A newer sequel rule does not replace them. Galaxsys develops the game, the operator maintains the account and the editorial publisher writes the reference. A casino app is not published in the game’s name.

Recorded search procedure

Action	Result and boundary
Exact search	Catalogue → Tower Rush → Galaxsys → Original.
Partial search	Tower also returned Tower Rush 2; the suffix was checked before launch.
Provider filter	Galaxsys retained the studio’s games, not every cover showing a tower.
Genre filter	Fast/Crash/Tower are operator categories; the rules determine mechanics.
Combined filters	Name plus Galaxsys; edition suffix checked separately.
Reset	Returned to the general results while the selected account remained.
Favourite	Original was saved and reopened; the sequel did not replace it.
Recently opened	The launch appeared in recents, which are not a monetary bet history.
New label	A catalogue label, not a calculated release date.
Result order	Exact match first, then other titles; search rank is not an RTP rating.
Next page	Further results loaded and duplicates of the exact game key excluded.
Task duration	Three actions to mode selection; search took 8.4 seconds, separate from client loading.

A card, a demo and a cash launch are different

Recorded states include a Stake card, a Parimatch demo and a Betify tournament card. Nine Android APK profiles and Stake PWA, Android/iPhone Opera and Windows Brave/Chrome are distinct access routes. The reported original-card launch was confirmed by Galaxsys identity and an available Build control. Territorial availability, account eligibility and legal permission are separate from page visibility.

Tower Rush 2 shows 2X Chance and Buy Bonus in the recorded image. Neither button is imported into the selected original. The original’s monetary cap is not a universal 100× multiplier; source-specific RTP, dates and stake ranges remain separated in G01-home.pdf.
