Tower Rush bonuses: ten complete selected offers and campaign distinctions

Tower Rush India | https://towerrushindi.com/en/bonuses/

Start with the game’s contribution, not the banner

All ten selected welcome offers in the source give original Tower Rush a 0% wagering contribution. The independent cash episodes therefore use personal money without active welcome bonuses. A bonus credit, free-spin nominal value, freebet or tournament point is not automatically withdrawable cash. These are the recorded 3 November 2026 offers/observations, not a promise that every account can activate them now.

All ten selected monetary welcome calculations

Operator	Qualifying deposit → bonus; percentage / cap	Wagering requirement
1Win	400 INR → 400 INR; 100% / 20,000 INR	35× bonus = 14,000 INR
Stake	12.50 USDT → 9.38 USDT; 75% / 150 USDT	30× credited bonus = 281.40 USDT
MyStake	20 USD → 30 USD; first stage 150% / 750 USD	30× (deposit + bonus) = 1,500 USD
1XBET	250 INR → 250 INR; 100% / 18,000 INR	35× bonus = 8,750 INR
4RABET	350 INR → 437.50 INR; 125% / 25,000 INR	40× bonus = 17,500 INR
Melbet	300 INR → 300 INR; 100% / 15,000 INR	30× bonus = 9,000 INR
Parimatch	450 INR → 900 INR; 200% / 24,000 INR	35× bonus = 31,500 INR
Crorebet	500 INR → 3,500 INR; 700% / 40,000 INR; Aviator offer	40× bonus = 140,000 INR
Betify	20 EUR deposit; 0% monetary match / zero cash-bonus cap	100 Shaolin Panda FS; winnings basis at 0×
Betclic	600 INR → 300 INR; 50% / 12,000 INR	25× bonus = 7,500 INR

Monetary awards use min(deposit × percentage ÷ 100, cap), with recorded currency rounding. Stake's 12.50 × 75% is credited as 9.38 USDT, and the saved rollover uses that credited amount. Betify's zero monetary match does not mean there is no reward: its selected benefit is a separate free-spin package. No currency conversion is inserted between offers.

Activation, time limits and observed credit times

Operator	Credit after qualification	Expiry / eligible-slot maximum stake
1Win	65 sec	14 days / 100 INR
Stake	88 sec	14 days / 1 USDT
MyStake	111 sec	30 days after activation / 5 USD
1XBET	134 sec	14 days / 100 INR
4RABET	157 sec	14 days / 100 INR
Melbet	180 sec	14 days / 100 INR
Parimatch	203 sec	7 days / 100 INR
Crorebet	226 sec	7 days / 100 INR
Betify	249 sec for the recorded zero cash match; FS are separate	14 days / 5 EUR
Betclic	272 sec	14 days / 100 INR

Except MyStake, the recorded selection is enabled in the cashier before the transfer, with no separate code. MyStake uses Profile → Bonuses → Activate after deposit and before the first bet. No public or personal code was required, issued or published for these selected offers. Each records zero registration-awarded FS: a deposit reward is not a registration gift. MyStake's activation timing must not be replaced by the other operators' flow.

MyStake's 300% package is three stages

Stage	Rate / cap	Example on USD 20 deposit	30× (D+B) turnover
1	150% / USD 750	USD 30 bonus	USD 1,500
2	100% / USD 500	USD 20 bonus	USD 1,200
3	50% / USD 250	USD 10 bonus	USD 900

Three deposits of USD 20 total USD 60, with USD 60 total bonuses: effective credit is 100% of total deposits, not 300%. Combined turnover is USD 3,600. Skipping stage one does not remove stage-two eligibility in the source. Mini Games do not move rollover. Cancellation through chat is governed by the recorded combined-balance rule, not an assumption that only the bonus disappears.

Free spins, freebet and sticky-bonus restrictions

Betify's selected package is 100 FS on Shaolin Panda at EUR 0.20 each: EUR 20 nominal value, EUR 18.40 actual recorded winnings, 0× wagering and a EUR 250 welcome-win cap. The nominal EUR 20 is not the win. The active sticky-bonus state blocks withdrawal and has no self-service cancellation in this profile. Tower Rush is not substituted for Shaolin Panda.

Crorebet's separate INR 300 Aviator freebet does not return the stake. At 2× its recorded wallet credit is INR 300, not INR 600. It is not a Tower Rush freebet. The other selected offers have no separate freebet, and only Betify's selected offer has a free-spin package. A 0% Tower Rush contribution explains lack of bonus progress; it is not itself a technical failure.

The corrected 4RABET credit: keep the full timeline

Event on 3 November 2026	IST time / value
Qualifying deposit	12:00; INR 350
Initial bonus	INR 0, instead of min(350 × 125%, 25,000) = INR 437.50
Support request SUP-4RABET-B	12:07
First substantive reply	12:10; three minutes after request
Bonus specialist	12:11
Correction posted	12:15; eight minutes after request, 15 after qualification
Final bonus credit	INR 437.50, once
Cash and combined display	Cash INR 350; combined panel INR 787.50, not a withdrawable-cash total

The completed case is a correction, not a refusal. Rollover remains 40× bonus, INR 17,500, with Tower Rush contributing 0%. The evidence set includes the initial zero panel, qualifying transaction, corrected panel and chat timeline. Reopening uses the same case ID and does not produce another INR 437.50. Ordinary support episodes made no financial adjustment; this incident is separate from the ordinary 157-second credit observation.

Galaxsys Challenge: event, points and full prize calculation

The supplied Betify Challenge runs 2 November 2026 00:00:01 to 8 November 2026 23:59:59 UTC. Its final result was not known at the editorial date. Tower Rush appears among 17 eligible games. Opt-in precedes qualifying play; minimum stake is EUR 0.20. The approved calculation profile counts settled winning rounds, excludes void/pending rounds, and sums gross payout ÷ stake with a minimum qualifying ratio of 1×. Points are dimensionless, not EUR. The "6 D" display is distinct from the exact calendar interval.

Place / range	Prize per place, branded nominal units	Range total
1	12,000	12,000
2	9,000	9,000
3	7,500	7,500
4	6,000	6,000
5	5,000	5,000
6	4,000	4,000
7	3,000	3,000
8	2,500	2,500
9	2,000	2,000
10	2,000	2,000
11–20: ten places	1,000	10,000
21–40: twenty places	500	10,000
41–50: ten places	200	2,000

The first ten sum to 53,000 units; the expanded fifty-place calculation totals 75,000 units. Only the first ten places were visible in the original snapshot; the remaining bands are the approved calculation extension. The branded prize units are not relabelled EUR. Its model gives 0× prize wagering, credit within 24 hours after the finish and earlier achievement winning a tie; none is recorded as already paid on 4 November. Galaxsys is the provider and Betify the hosting operator. Later Toucan/Mining/Pirate campaigns have separate periods.

Wheel, VIP and cashback remain separate

Wheel of Legends is an operator wheel, not Tower Rush's Temple bonus floor. It can award cash, FS or loyalty points. Examples are unfunded 10 FS at 10% probability and funded 75 FS at 1%, with FS nominal value 0.20 in the relevant currency. A game-round multiplier does not apply to those rewards. The original Tower Rush profile has no activated operator jackpot; a tournament pool is not a game jackpot.

MyStake's ten level names are Pluto, Neptune, Uranus, Saturn, Jupiter, Mars, Earth, Venus, Mercury and SUN. Points are not money. The calculation assigns Pluto [0,500), Neptune [500,5,000), Uranus [5,000,13,000), so exactly 500 points is Neptune. The attained level is retained in the current calculation month, not promised for life. Weekly cashback has its own period and qualification contributions remain separate.

Neptune’s transition reward is 50 × EUR 1 FS on Axolotl Games COD Hunters: EUR 50 nominal value, not a guaranteed win, awarded once rather than again on reopening the profile. MyStake’s manager begins at Jupiter; the shown Betify levels 1–4 have none. 1w/Stake use USD turnover rather than MyStake points; 1w Gold 3 opens VIP Club, and alternative status transfer is a request rather than automatic balance credit. Marketplace exchange needs a specific product.

Eligibility comes before activation

New Indian registration restrictions in the saved Betify and Parimatch material remain separate from historical account observations. A game appearing in Challenge does not waive those restrictions. Verify account eligibility, exact game, wagering contribution, reward type, active-bonus withdrawal state and the named payment route. Activation is optional and does not guarantee profit. E01–E10 retain the complete welcome tables for each profile; supplemental operator volumes preserve the wider offers without merging foreign-market terms into these episodes.
