# Operator identity, licence records and territorial scope

Tower Rush India | https://towerrushindi.com/en/licensing/

## Game, operator and publisher

Legal records belong to their operator and domain. Galaxsys MGA/B2B marks concern provider scope, not a casino licence. Tower Rush India is an editorial publisher; an operator licence does not cover towerrushindi.com. Language, INR display, a visible card or an individual successful episode does not establish territorial permission.

## Recorded particulars

| Record | Identity and scope |
|---|---|
| Stake | Medium Rare N.V.; company 145353; Curaçao licence OGL/2024/1451/0918; domain stake.com. Document status belongs to 3 November 2026. |
| Russian Melbet | OOO MELOFON belongs to the Russian context, not automatically to international Melbet. |
| 1Win licence | 1Win N.V.; registration 147039; OGL/2024/587/0621; B2C; granted/active since 26 March 2025. Regulator record: https://cert.cga.cw/token?id=621. |
| 1Win scope | The separate public record does not establish the entity serving the particular 1Win-IN account or permission for India. CASH-1WIN remains separate; 1w and 1Win are not merged. |
| Parimatch notice | parimatch.com is described as a Curaçao-registered legal entity with a valid CGA gaming licence under LOK P.B.2024 No.157. Regulator: https://www.cga.cw/. |
| Parimatch naming | No full entity name or licence/registration number is supplied by that notice; none is invented. The descriptive notice is not recast as absence of a licence. |
| Betify | General terms 2.9 prohibit registration from India. BETIFY-IN is an individual episode, not permission for new Indian registrations. |

# Dates and domains

Validator links, regulator contacts, issue/expiry dates and covered domains belong to the specific document. A logo or brand does not expand coverage to mirrors. No date is invented for an absent field. Operator terms define territorial exclusions. Publication in English does not change the country or legal scope of an observation.

Identity-document stages are in G19-verification.pdf and E01–E10. Provider company and certification details are in G08-galaxsys.pdf.
